

**Babies
love books**

Enjoy together!

Reading aloud is talking to your child, telling and pointing things out, mimicking sounds, finding objects and animals, laughing and singing...

Flying start

By looking at and reading books with you, your child will learn lots of new words and will understand everything better. This will make it easier to get started at school.

Anywhere, anytime

Reading together is nice.
You can take time to sit quietly,
or simply read in between
all the other things you do
with your child.

Books for babies

All kinds of different books to try out with your child.

In your own language

Read to your child in your own language. That's the language in which you feel and think, and it's the one you know the best.

Visit the library

You'll find lots of books for babies at the library.
You can borrow them free of charge.
You'll also meet other parents there.

BoekStart

Your child can join for free.
You'll get the little case
with two books as a gift.

Visit boekstart.nl or download
the BoekStart app for everything
you need to know about reading
to your child.

© **Stichting Lezen (April 2024)** BoekStart is a non-commercial reading promotion program, developed by Stichting Lezen, in association with the KB, nationale bibliotheek. The library sector implements the program. BoekStart is part of the program Kunst van Lezen, financed by the Ministry of Education, Culture and Science.
